

STAT Program

S.T.A.T. (Stoughton Hospital Teen Activities Team) is a volunteer program designed for teens ages 14 to 18 to engage them in healthcare and working with our patients in a supervised, supportive environment.

The S.T.A.T. Program is offered four times a year in eight week sessions.

- The next session is September 14th – November 9th.
- The teens commit to a two hour block of time each week.
- Recommended times for the school year would be two hour blocks between the hours of 3:00 p.m. to 6:00 p.m. (Summer hours are more flexible)
- Orientation will be on Thursday, September 10th 3:30 p.m. - 5:00 p.m.

Activities may include visiting with patients, playing cards and games, Wii games, crafts, dice games, bingo, cards and assisting staff with serving snacks and meal trays.

Ten “volunteens” are chosen through an interview process looking for individuals that are interested and enthusiastic about making a difference in the lives of our patients. It creates an opportunity for teenagers to become empowered with leadership and communication skills while being exposed to the hospital environment and community. It may also help fulfill education requirements, build a resume for college, and learn new skills while helping others.

To apply for or learn more information, please contact Stoughton Hospital Human Resources at 873-2213 or 873-2296.
