

# The Healthy Aging Brain

Join Susan Richards, RN, to learn how to lower dementia risk and keep our brains healthy. The session will cover common diseases that cause dementia, other conditions that mimic dementia, signs and symptoms, risk factors and strategies to maintain a healthy brain.

This talk will be presented twice on June 28th.

Wednesday, June 28th at 10 a.m.  
Stoughton Hospital  
900 Ridge Street, Stoughton  
Bryant Health Education Center  
(lower level)

Wednesday, June 28th at 6:30 p.m.  
Stoughton Public Library  
304 S. Fourth St, Stoughton  
Carnegie Meeting Room  
(lower level)

Sponsored by the Stoughton Dementia Friendly Coalition & Partners
